### Ultimate Systems Rubber Flooring Is FloorScore® Certified

FloorScore is a voluntary, independent certification program that tests and certifies hard surface flooring and associated products for compliance with criteria adopted in California for indoor air emissions of VOCs with potential health effects. The program uses a small scale chamber test protocol and incorporates VOC emissions criteria, which are widely known as Section 1350, developed by the California Department of Health Services.

FloorScore was developed by the Resilient Floor Covering Institute (RFCI) in conjunction with Scientific Certification Systems (SCS).

Ultimate Systems' Ultimate Tough and Ultimate Design resilient rubber flooring products conform to the Collaborative for High Performance Schools (CHPS) - CA Section 01350 specifications.

For more information on the FloorScore certification program, the Scientific Certification System, or CHPS, visit these online resources:
